

KEVIN FOCKE

Software engineer with business background

kevinfocke.com kevinfocke kevinfocke kevinfocke

Haarlem, Netherlands

EXPERIENCE

Technology Consultant | Financial Services

PwC Advisory

Oct 2022 – Ongoing Amsterdam, Netherlands

- Built a custom Python (Pandas) model at the core of the business case. The program uses best-practice Design Patterns (abstract factory, prototype, decorator...) to easily add new features. The model can also non-destructively simulate new starting scenarios.
- Evaluated the long-term commercial viability of a programming language.
- Setup a continuous integration development environment from the ground up.

Functional Analyst

The Reference via Planet Talent

Sep 2021 – Oct 2021 Ghent, Belgium

- Analyzed website onboarding flow for insurance client.
- Helped create Kentico content model for multinational industry client.

Intern

Deloitte – Customer Strategy & Applied Design

Mar 2021 – May 2021 Brussels, Belgium

- Worked on a project by the European Commission. The project aims to improve the interoperability between European IT systems.
- Analyzed technical documentation to create insightful & easy-to-understand diagrams.
- Programmed a URL mapping & validation tool in Python to help ensure a smooth website migration.

EDUCATION

Project-Based Learning

Independent Studying

Oct 2021 – Aug 2022

- Overview of coding projects on: kevinfocke.com/coding
- Gained practical programming experience through hands-on projects and strengthened my software engineering foundations through a combination of MOOC university courses & books.

MSc. Business Administration - IT & Management

Ghent University

Sep 2019 – Sep 2021

- Grade: Cum Laude
- Master thesis subject: Managing blockchain data entry risks in sustainable supply chains.

LIFE MOTTO

"Let's get it done well!"

PERSONALITY

Ambitious
The sky is the limit!

Time Is Money
Straight to the point. No bla bla.

Growth Mindset
Always excited to learn more!

Progress Through Craftsmanship
"Real artists ship." – Steve Jobs

SKILLS

Agile Collaborative Self-Starter

Python 3 Pandas C++ 20 SQL

Lisp (Scheme) Docker

IT Infrastructure Analysis Data Analysis

Object-Oriented Programming

BPMN Diagrams Database Schemas

Project Management

CERTIFICATIONS

- Python Programmer Track by DataCamp
- Process Mining Expert by Celonis
- Database Foundations by Oracle
- BPMN fundamentals by The Master Channel
